

BRIEF

FACTS

HIMACHAL PRADESH

2006-07

**ECONOMICS AND STATISTICS DEPARTMENT
HIMACHAL PRADESH**

PREFACE

The "Brief Facts about Himachal Pradesh" is designed to present, in a concise form, the principal statistical series currently available in respect of all important aspects of the economy of Himachal Pradesh.

The Sixteenth issue of 'Brief Facts' has been brought out by the department with the ideas that this small handy booklet is proving very useful to those who use statistical data frequently and quickly and do not have the time or facility to refer to the more detailed publications of this department.

This booklet has been compiled in the Official Statistics Section of the Directorate.

Pradeep Chouhan
Economic Adviser to the
Govt. of Himachal Pradesh.

BRIEF FACTS ABOUT HIMACHAL PRADESH

Historical Background:

Himachal Pradesh came into being on 15th April, 1948 as a centrally administered territory by the integration of 30 erstwhile princely States. At that time the State had four districts viz. Chamba, Mahasu, Mandi and Sirmaur and its area was 25,839 sq. kms.

Later in 1951, it became a part "C" State under a Governor with a 36 Member Legislative Assembly and a three member cabinet. In 1954, Bilaspur, another part 'C' State was merged with Himachal Pradesh thereby adding one more district with an area of 1,168 sq. kms. and the strength of its Assembly was raised to 41.

In 1956, despite the majority recommendations of the State Reorganisation Commission for its merger with Punjab, Himachal Pradesh retained its separate entity. On November 1, 1956 it again became a Union Territory under an Administrator designated as Lieutenant Governor and its Assembly was abolished. In 1960, a new border district of Kinnaur was carved out of Mahasu district. Then in 1963, Assembly was revived and a popular Ministry was formed. Till October, 1966 the old Himachal Pradesh comprised the six hill districts of Bilaspur, Chamba, Kinnaur, Mahasu, Mandi and Sirmaur with an area of 27,007 sq. kms. having a population of 13,51,144 persons (1951 Census).

On 1st November, 1966, it was enlarged by merging the district of Kangra, Shimla, Kullu, Lahaul-Spiti, the Nalagarh tehsil of Ambala district, some parts of Una tehsil of Hoshiarpur district and Dalhousie of Gurdaspur district of the then Punjab State. With this merger the total area of Himachal Pradesh increased to 55,673 sq. kms. and its population to 28,12,463(1961 Census). Now it comprised the Districts of Bilaspur, Chamba, Kangra, Kinnaur, Kullu, Lahaul-Spiti, Mahasu, Mandi, Shimla and Sirmaur. On 25th January, 1971, Himachal Pradesh attained Statehood.

Reorganisation of the districts took place on 1st September, 1972 as a consequence whereof two more new districts namely Una and Hamirpur were created mainly as a result of trifurcation of the erstwhile Kangra district. Also from the then existing districts of Mahasu and Shimla, new districts of Shimla and Solan were formed by reorganising the boundaries of old districts.

Presently, the strength of Legislative Assembly of Himachal Pradesh is 68. To the Union Legislature, Himachal Pradesh is represented by 4 Members to Lok Sabha and 3 Members to Rajya Sabha. The Pradesh has got a High Court and a Public Service Commission located at Shimla. There are four Universities in the Pradesh. One for general education with its seat at Shimla the other Agricultural University with its seat at Palampur, third is Horticulture and Forestry University with its seat at Nauni(Solan) and fourth is J.P. University of IT, Waknaghat(Solan).

Physical Features:

Himachal Pradesh is almost wholly mountainous with altitudes ranging from 350 metres to 6,975 metres above the mean sea level. Its location is between Latitude $30^{\circ} 22'40''$ N to $33^{\circ} 12'40''$ N and Longitude $75^{\circ} 45'55''$ E to $79^{\circ} 04'20''$ E. It has deeply dissected topography complex geological structure and a rich temperate flora in the sub-tropical latitudes. Physiographically, the State can be divided in to five zones-viz. (i) Wet Sub-temperate zone, (ii) humid sub-temperate zone, (iii) dry temperate-alpine high lands, (iv) humid sub-tropical zone, and (v) sub-humid sub-tropical zone. Wet sub-temperate zone comprises Palampur and Dharamshala of Kangra district, Jogindernagar area of Mandi district and Dalhousie area of Chamba district, humid sub-temperate zone comprises the district of Kullu, Shimla, parts of Mandi, Solan, Chamba, Kangra and Sirmaur, Dry temperate- Alpine High lands include major parts of Lahaul-Spiti, Pnagi and Kinnaur, humid sub-tropical zone consists of Bilaspur, Bhattiyat valley of District Chamba, Nalagarh area of District Solan, Dehragopipur and Nurpur areas of district Kangra and sub-humid tropical zone comprises of District Una, Paonta-Sahib area of District Sirmaour, and Indora area of District Kangra.

Climate:

Himachal Pradesh lies in the lap of Himalayas. Its climate is largely conditioned by that single factor. It varies from mild to cold with area under snowing winters. The normal rainfall is 1278 mm. The maximum rainfall is in Kangra district.

Soils:

The soils of Himachal Pradesh can be broadly divided into nine groups on the basis of their development and physiochemical properties. These groups are alluvial soils, brown hill soils, brown earths, brown forest soils, grey wooded or podzolic soils, grey brown podzolic soils, plansolic soils, humus and iron podzols and Alpine humus mountain skeletal soils.

Rivers:

Rivers which flow through this State are Beas in Kullu, Mandi and Kangra districts, Satluj in Kinnaur, Shimla and Bilaspur districts, Yamuna has its tributaries in Shimla and Sirmaur districts, Chenab (Chander Bhabha) flows through Lahaul-Spiti and Chamba districts and Ravi through Chamba district.

All these rivers are snow-fed and hence perennial. Besides the natural reservoirs and the large drops available in the river courses provide immense potential for hydel power generation at a low cost.

Population:

Himachal Pradesh extends over an area of 55,673 sq. kms. According to 2001 census, the total population of the state is 60,77,900 with a density of 109 persons. The highest density 369 is in Hamirpur district and the lowest in 2 in Lahaul-Spiti district. About 90.2 percent of the population lives in rural areas. According to 2001 census, percentage of total workers to total population was 49.2 per cent, and number of females per thousand males was 968. The decennial growth rate was 17.54 per cent during 1991-2001.

Livestock Population:

According to 2003 livestock census, the total livestock population in the State was 50,46,044 and the total poultry was 7,64,136.

Land Holdings :

There is a preponderance of small land holdings in the Pradesh. According to 2000-01 Agricultural Census, the holdings of less than one hectare accounted for 67.3 per cent of the total

holdings whereas the area covered by these holdings formed only 25.8 per cent of the total area. If small farmers are also taken into account with marginal farmers, then the percentage of holdings comes to 86.4 whereas the area coverage upto 2.0 hectares size-class is only 50.8 per cent. Average size of a holding was 1.1 hectares in 2000-01.

Agriculture :

Agriculture is the main occupation of the people of the state. About 69 per cent of the main workers are engaged in agricultural pursuits. Agriculture is beset with the disadvantages of small holdings. Only 75 per cent of the total reporting area is available for cultivation. Out of this area, 'net area sown' and 'current fallows' account for only 13 per cent. There is hardly any scope for mechanized farming due to preponderance of small holdings and terraced fields. Against all these odds, the farmers of Himachal Pradesh are constantly endeavoring to exploit fully the agricultural potential of the State to increase food production and also to supplement the incomes by producing quality cash crops. Wheat, barley, paddy and maize are the important cereal crops under cultivation. Seed potato, ginger and off-season vegetables are the important cash crops. There is potential for the development of crops like hops, mushrooms, olives, saffron and zeera.

Horticulture :

Horticulture in the upper reaches and mid hills and cereals in the valley seems to be the schematic design of the things, the nature has designed for Himachal Pradesh. Himachal Pradesh Government and the farmers have seized this opportunity and today this Pradesh has emerged as the 'Horticultural State of India'. Apple is the major horticultural crop, the production of which was 2.68 lakh tonne during 2006-07. Bulk of the apple is produced in five districts viz. Shimla, Kullu, Mandi, Kinnaur and Chamba.

Power :

Himachal Pradesh State Electricity Board is engaged in the investigation and execution of various hydro electric projects and transmission and distribution of electricity. It is a matter of satisfaction that despite very difficult and mountainous terrains almost all the inhabited villages in the State have been electrified.

Himachal Pradesh has a vast hydro electric potential which is estimated at 20,815 MW. The total installed capacity (hydro and diesel) in Himachal Pradesh as on 31st March, 2007 was 467.2 MW (Hydro 467.1 MW and diesel 0.1 MW).

Industries :

Himachal Pradesh has made significant achievements in the field of industrialization. The process of industrialization in the State started during the eighties and gained momentum during the decade. Up to December, 2007, there were 348 medium and large scale industries and about 33,226 small scale industries with a total investment of Rs. 4,789.85 crore in the State. These industries provide employment to about 1.94 lakh persons.

Roads :

In a hilly state like Himachal Pradesh, the entire progress depends primarily on the development of roads. It is not possible to provide appreciable length of railways in these areas. No movement of any type of material and persons in various fields like agriculture, horticulture, industry is at all possible unless there is a well developed system of roads and road transport. Thus the roads constitute the very life line of Himachal's economy. The density of motorable roads per 100 sq. kms. of area in Himachal Pradesh stood at 54.36 km. as at the end of 2006-07.

Transport :

Road transport is the principal mode of transportation in Himachal Pradesh. Passenger Transport is managed by a Government Owned Himachal

Road Transport Corporation(H.R.T.C.). As on 31st March, 2007 this Corporation had 1,763 buses and 79 attached buses, 11 trucks and 64 other vehicles. There are only two narrow gauge railway lines connecting Shimla with Kalka (96km.) and Jogindernagar with Pathankot(113 km.)and one 33 km. broad gauge railway line from Nangaldam to Charuru District Una. At present there are onluy three Airports namely Shimla at Jubbar Hatti, Kangra at Gaggal and Kullu at Bhuntar.

Drinking Water Supply:

All the villages have been provided with safe drinking water supply facilities by March, 1994. Out of 45,367 habitations in the State 39,337 were "Fully covered" and 6,030 were "Partially covered" as on 1-4-2005.

Education:

In terms of literacy, literacy percentage of the Pradesh has increased from 63.86 in 1991 to 76.5 in 2001 as against All-India literacy rate of 64.8 per cent To achieve 100 percent literacy in the State, a literacy mission has been started in each district with the co-ordination of Primary Education Deptt. and the Distt. Saksharta Samiti under the chairmanship of Deputy Commissioners.

There were 10,607 Primary 3,847 Middle Schools during 2006-07 and 2,341 High/10+2 School in the Pradesh during 2004-05.

Public Health and Family Welfare:

Due to successful implementation of various health programmes the health of the people of the State has improved. Special attention has been paid to the provision of health and medical care services in the remotest rural areas of the Pradesh. Disease control and eradication programmes have given rich dividends. Total number of medical institutions stood at 1,798 on 31st March, 2007. The State has recently released a "Himachal Pradesh Vision 2020" which focuses on access to primary health care at all levels and as such each sub-centre and PHC will provide need based additional health facilities.

State Income:

According to quick estimates, the per capita income of Himachal Pradesh in 2006-07(Advance) stood at Rs. 36,783. This shows an increase of 8.8 percent over 2005-06(Rs.33,805) in the State.
