CRADLE

ROLE OF NGO:-

The overall objective of NGO is to assist the HPRIDC in the implementation of Resettlement Action Plan (RAP) and resettle & rehabilitate the Project Affected People (PAPs).

Therefore it is considered extremely important to secure full participation of people who are likely to be affected by project through suitable resettlement and rehabilitation. Special measures of assistance for vulnerable group's e.g. woman-headed households, BPLs and disabled person would be provided.

All information related to the resettlement & rehabilitation will be disclosed to APs.

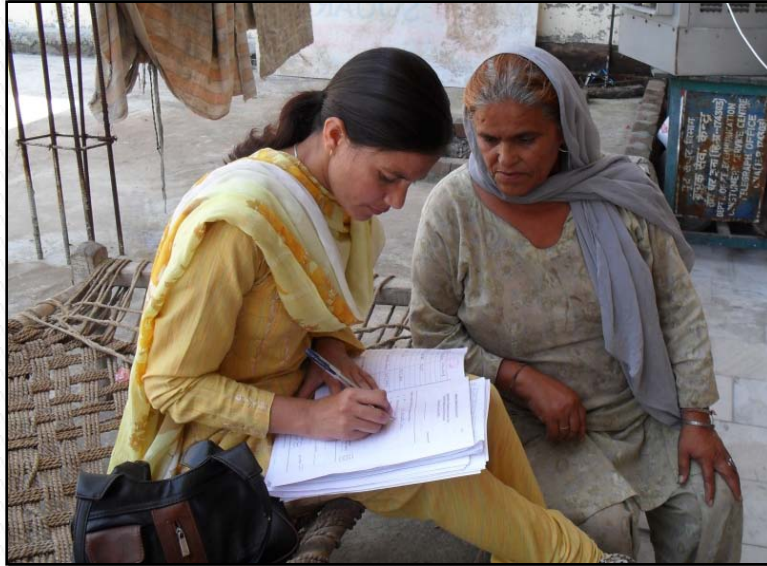

The main emphasis of R&R policy would be to resettle the project displaced person in a better way. Although it has been observed that there is no ample land for resettlement of the PDPs, but efforts would be made by the implementing agency to resettle the roadside dwellers in coordination with the District Administration.
